General Information

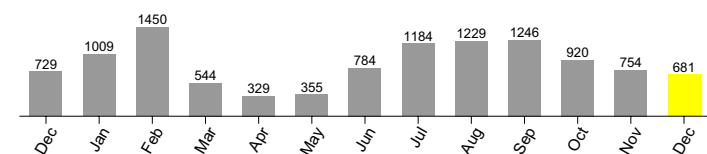

Grayson-Collin Electric Cooperative, Inc. is a not-for-profit company owned and controlled by you, the member/owner. Our mission is to **"provide the very best possible service at the least possible cost."** For additional information, you may call our friendly Member Service Representatives at 903-482-7100 or log onto our website at www.grayson-collin.coop.

You may find definitions and explanations of terms such as Meter, Kilowatt Hour, Demand and many others by visiting our website at www.grayson-collin.coop. On the website you will also find a copy of our Member Handbook and Bylaws. In an effort to conserve natural resources, we have chosen not to print and distribute this informative handbook via the US Postal Service. You may print a copy for your records, or feel free to do your part in going green by browsing our website.

Power Cost Recovery Factor(PCRF) is the difference between the cooperative's estimated energy cost and the actual cost paid for wholesale power. As a not-for-profit organization, Grayson-Collin Electric Cooperative cannot over or under collect more than its actual cost of energy.
